## The Role of Informal Conversations on Fertility and AIDS Behavior in Malawi MEN'S QUESTIONNAIRE

### INTRODUCTION TO RESPONDENT

*My name is \_\_\_\_\_. I am working with a research team from the University of Malawi and the University of Pennsylvania. We are doing a survey in order to learn about various health issues in your area. I will begin with some questions about you yourself and your household. I will then ask about conversations you've had about family planning and about AIDS. Please be as accurate as possible, since your answers will help us understand the experiences and concerns of those living in this region today. And, please, ask me to explain if you don't understand any of the questions that I ask. If there are any questions you don't want to answer, please let me know. Everything you tell us will be seen only by the research team and will be kept fully confidential. May I begin now? Thank you very much for agreeing to talk with me.*
