NOW RETURN TO A24a AND ASK THE QUESTIONS ABOUT THE NEXT CONVERSATION PARTNER UNTIL YOU FINISH ALL PARTNERS LISTED IN A23b.

If the respondent mentioned less than four conversation partners, probe: "Is there anyone else you have talked to about AIDS that you did not mention before?"

If YES, go back to A23b, write the person's name, and ask the questions about that person from A24a to A38d

X1	Pick the number of beans that reflects how likely you think it is that...	# of beans in plate	Prompt for 0 or 10?
	a) you will win if we play a game of Bawo after this interview	[_____]	1
	b) a baby born in your community this month will die within one year	[_____]	1
	c) you will go to the market at least once <u>within the next 2 days</u> (LEAVE BEANS IN PLATE)	[_____]	1
	d) you will go to the market at least once <u>within the next 2 weeks?</u>	[_____]	1
INTERVIEWER: Did Respondent add any beans between X1c and X1d?		If yes → X1f	
	e) Remember, as time goes by, you may find more time to go to the market. Therefore, you should have added beans to the plate. Let me ask you again. Now, add beans in the plate so that the number of beans in the plate reflects how likely you think it is that you will go the market at least once <u>within 2 weeks?</u>	[_____]	1
	f) you will experience shortage of food in the next 12 months?	[_____]	1

For the subsequent questions, no longer prompt for “0” and “10” answers

X2	Pick the number of beans that reflects how likely you think it is that...	# of beans in plate
	a) you will have to rely on family members for financial assistance in the next 12 months	[_____]
	b) you are infected with HIV/AIDS now	[_____]
	c) your romantic partner is infected with HIV/AIDS now (INTERVIEWER: If no romantic partner, write 99 and -> X2e)	[_____]
	d) you will use condom the next time you have sex with your romantic partner (INTERVIEWER: if no romantic partner, write 99)	[_____]
	e) you will use condom the next time you have sex with someone you just met (INTERVIEWER: If no sex with someone just met, write 99)	[_____]
	f) You will be married one year from now	[_____]
X3	Consider a healthy woman in your village who currently does not have HIV. Pick the number of beans that reflects how likely you think it is that she will become infected with HIV ...	# of beans in plate
	a) during a single intercourse without condom with someone who has HIV/AIDS	[_____]
	b) Within the next 12 months (with normal behavior)	[_____]
	c) Within the next 12 months if she is married to someone who is infected with HIV/AIDS	[_____]
	d) Within the next 12 months if she has several sexual partners in addition to her spouse	[_____]
	e) What about if this woman we just spoke about [in X3d] uses condom with all extra-marital partners? How many beans would you leave on the plate?	[_____]

Next, I would like you to consider the likelihood that somebody dies as time goes by. This is an imaginary person, and I am going to describe her to you. The beans in the plate represent the chances out of 10 that the person dies within a certain time period. The person is alive today so we start with an empty plate. As time goes by, more unfortunate things can happen and the person has more chances of dying, so more beans will be added to the plate”

INTERVIEWER:

1. Ask questions X4 to X5b for the INDIVIDUAL described in Column A. After X4 and X5a, LEAVE beans in plate. After X5b, put beans back in the cup. RECORD the number of beans in the plate after each question.

2. **COLUMN by COLUMN, REPEAT** questions X4 to X5b for the **INDIVIDUALS** described in Columns B, C and D. For each individual, **LEAVE** the beans in the plate after X4 and X5a, and put beans back in the cup after X5b. **RECORD** the number of beans in the plate after each question.
3. If respondent says “I Don’t Know”, probe with examples: “someone might die because of old age, disease, car accident. How likely do you think it is any of those things happen within [for X4: 1 year; for X5a: 5 years; for X5b: 10 years]?”

Finally, I would like to ask you to consider the likelihood that you may not be alive as time goes by. We hope that nothing bad will happen to you, but nevertheless, something unfortunate may occur over the next years despite all precautions that you may take. If you don’t want to, you do not need to answer this question.

INTERVIEWER: If respondent refuses to answer, skip to **X8: Time and Risk Preferences**.

Section 7: Time and Risk Preferences

Next, I would like to ask you some questions about your preferences in monetary matters. These are purely hypothetical questions, and there are no right or wrong answers. Please try to answer these questions as if you were actually facing this situation in real life.

For the next three questions, suppose that you have won 1,000 Kwacha in a lottery. I am interested in whether <ul style="list-style-type: none"> ▪ You would prefer these 1,000 Kwacha that you would get for sure, OR whether ▪ You would take the 50-50 chance to double your money, in which case you have a 50-50 chance to receive more than the original 1,000 Kwacha, and a 50-50 chance to receive less than your original K1,000. 	
RP1 Suppose that you won K1000. You could keep the K1000 or take a 50-50 chance to double the money to K2000 but also a 50-50 chance to reduce the money to K667. Would you rather have: <div style="text-align: center;">[READ RESPONSES]</div>	K1,000 for sure.....1 50-50 chance for K2,000 and 50-50 chance for K667....2
RP2 Suppose you get a 50-50 chance to double the money to K2000 but a 50-50 chance to reduce the money to K250. Would you rather have: <div style="text-align: center;">[READ RESPONSES]</div>	K1,000 for sure.....1 50-50 chance for K2,000 and 50-50 chance for K250...2
RP3 Suppose you get a 50-50 chance to double the money to K2000 but a 50-50 chance to reduce the money to K900. Would you rather have: <div style="text-align: center;">[READ RESPONSES]</div>	K1,000 for sure.....1 50-50 chance for K2,000 and 50-50 chance for K900....2

The next few questions are about receiving money now as compared to receiving money later.

KB1 Would you prefer 310 Kwacha now or 850 Kwacha in 1 week?	310 Kwacha now1 850 Kwacha in 1 week2
KB2 Would you prefer 780 Kwacha now or 800 Kwacha in 5 months?	780 Kwacha now1 800 Kwacha in 5 months2
KB3 Would you prefer 540 Kwacha now or 800 Kwacha in 1 month?	540 Kwacha now1 800 Kwacha in 1 month2

KB4 Would you prefer 670 Kwacha now or 750 Kwacha in 4 months?	670 Kwacha now 1 750 Kwacha in 4 months 2
KB5 Would you prefer 550 Kwacha now or 750 Kwacha in 2 months?	550 Kwacha now 1 750 Kwacha in 2 months 2
KB6 Would you prefer 690 Kwacha now or 850 Kwacha in 3 months?	690 Kwacha now 1 850 Kwacha in 3 months 2
KB7 Would you prefer 410 Kwacha now or 750 Kwacha in 3 weeks?	410 Kwacha now 1 750 Kwacha K750 in 3 weeks 2
KB8 Would you prefer 800 Kwacha now or 850 Kwacha in 5 months?	800 Kwacha now 1 850 Kwacha in 5 months 2
KB9 Would you prefer 330 Kwacha now or 800 Kwacha in 2 weeks?	330 Kwacha now 1 800 Kwacha in 2 weeks 2

Next, I am going to ask you the same questions again, with one important difference. I will no longer ask you about receiving money now compared with receiving money later. Instead, I will ask you about receiving money 2 months from now compared with receiving money at a time more than 2 months from now.

KD1 Would you prefer 310 Kwacha in 2 months or 850 Kwacha in 2 months plus 1 week?	310 Kwacha in 2 months 1 850 Kwacha in 2 months plus 1 week 2
KD2 Would you prefer 780 Kwacha in 2 months or 800 Kwacha in 7 months?	780 Kwacha in 2 months 1 800 Kwacha in 7 months 2
KD3 Would you prefer 540 Kwacha in 2 months or 800 Kwacha in 3 months?	540 Kwacha in 2 months 1 800 Kwacha in 3 months 2
KD4 Would you prefer 670 Kwacha in 2 months or 750 Kwacha in 6 months?	670 Kwacha in 2 months 1 750 Kwacha in 6 months 2

Section 12: Social trust

Many organizations have been spreading information about HIV and how people can prevent themselves from getting infected. Some people trust these organizations to provide accurate information, and some people don't. I'd like to hear your opinion. I'm going to read you a list of organizations and people.

I'd like to hear how much you trust them to provide accurate information about HIV.

U1	List of organizations / people:	A great deal	A good amount	Very little	None	Don't know
a)	Your best friend	3	2	1	0	99
b)	Medical staff at the <u>government</u> clinics and hospitals	3	2	1	0	99
c)	Traditional Healers	3	2	1	0	99
d)	Medical staff at <u>private</u> clinics and hospitals	3	2	1	0	99
e)	Religious Leaders	3	2	1	0	99
f)	VCT (HIV testing) Counselors	3	2	1	0	99
g)	The Media [newspapers/radio]	3	2	1	0	99
h)	Your local Community Based Organizations (CBOs)	3	2	1	0	99
i)	Teachers	3	2	1	0	99

<p>U2 Now that you have thought about each one, I'd like to ask you, which is the one that you trust MOST to provide accurate information about HIV? I'll read the list again.</p> <p><i>INTERVIEWER: Read list from U1, and write letters.</i></p>	<p>1. [_____] [Write letters]</p>
<p>U3 On the other side, which is the one that you trust LEAST to provide accurate information about HIV? I'll read the list again.</p> <p><i>INTERVIEWER: Read list from U1, and write letters.</i></p>	<p>1. [_____] [Write letters]</p>

Section 13: Discussions about MDICP

Finally, I would like to ask you some questions about the persons with whom you have talked about this survey.

<p>G6 Have you discussed the 2006 "Let's Chat" survey with anyone, (apart from an MDICP interviewer)?
