MDICP 2006 Survey

(Ever-married men’s questionnaire)

Survey Continuation Consent

For never-married minors (age < 18):

Ask parents of respondent (INTERVIEWER: CIRCLE response):

We are here to continue the survey that we have begun with your son/daughter a few days ago. We would like to ask him/her some additional questions about his/her health, socioeconomic situation and family, including questions on some sensitive topics such as his/her sexual behaviors, perceptions of HIV risks and strategies for preventing infection with HIV.

Do you allow us to continue our interview with your son/daughter: Yes No

For all respondents, ask the respondent him/herself (INTERVIEWER: CIRCLE response):

We are here to continue the survey that we have begun with you a few days ago. We would like to ask you some additional questions about your health, your socioeconomic situation and your family, including questions on some sensitive topics such as your sexual behaviors, perceptions of HIV risks and strategies for preventing infection with HIV.

Do you allow us to continue our interview with you: Yes No

Proceed to survey if continuation consent is given. If consent is not given, END

INTERVIEWER INSTRUCTIONS:

1. **Do NOT read the categories “don’t know” or “do not remember” that are listed on the questionnaire. Mark responses as “don’t know” or “do not remember” ONLY if this is the respondent’s answer to a question.**

A. For CURRENTLY MARRIED respondents.

- a. [] WRITE the name of the Respondent's current wife in column "Partner #1" in Question S5
- b. [] **READ INTRODUCTION:** "I would like to ask you about additional sexual partners, besides your current wife. I am interested in your 3 most recent sexual partners. All the information that you give me is completely confidential, and neither your wife nor anybody else will see the information you give to me."
- c. [] **ASK:** "Please give me the names of your two most recent partners, other than your current wife, with whom you had a sexual relation. Include any previous wives if they were among your 3 most recent partners. If you prefer, you can give me a nickname or fictional name for each of these partners".
- d. [] **INTERVIEWER: Write the first two names (or fictional names or initials) reported by the respondent into columns for "Partner #2" and "Partner #3" in Question S5.**
- e. [] **INTERVIEWER: If respondent does not report any additional sexual partners, PROMPT:** "If you are concerned about confidentiality, I can assure you that the information that our team collects is confidential and your privacy will be protected. Neither your wife nor anybody else in your family or village will see the information that you report to me. If you report about your sexual relations, this will help us to better understand how HIV/AIDS has affected individuals and couples in this region, and how individuals and couples are responding in their sexual behaviors to increased risks of HIV/AIDS infection."

THEN ASK AGAIN: “Hence, please give me the names of the two most recent partners, other than your current wife, with whom you had a sexual relationship during the last 12 months. Include any previous wives if you had a sexual relation with them during the past 12 months. If you prefer, you can give me a nickname or fictional name for each of these partners”.

- f. **INTERVIEWER:** Write any additional names provided in the empty columns “Partner #2” and “Partner #3” in Question S5. If respondent does not report any names, do not prompt further.

NOW RETURN TO A24a AND ASK THE QUESTIONS ABOUT THE NEXT CONVERSATION PARTNER UNTIL YOU FINISH ALL PARTNERS LISTED IN A23b.

If the respondent mentioned less than four conversation partners, probe: "Is there anyone else you have talked to about AIDS that you did not mention before?"

If YES, go back to A23b, write the person's name, and ask the questions about that person from A24a to A38d

INTERVIEWER:

1. Copy the names of the AIDS conversation partners from A23b to the table below
2. Ask: " Finally, I would like briefly to ask you how well all the people you told me you have chatted with about AIDS know each other. For each pair that I mention, please tell me whether they are confidants, just friends, acquaintances, or they do not know each other." RECORD the response in the appropriate cell. Do not write in the shaded area."

1. NAME (from A31)	2. How much does [NAME] know...	NWP #1	NWP #2	NWP #3	NWP #4
NWP#1: _____	code relationship to...	DO NOT WRITE IN SHADED AREA			
NWP#2: _____	code relationship to...				
NWP#3: _____	code relationship to...				
NWP#4: _____					

Relationship **CODE:**

1 = confidants
2 = just friends

3 = acquaintances
4 = don't know each other

5 = don't know between the persons

Next, I would like to ask you a few short questions about condoms.

A39a <i>In the past 2 months, how many condoms did you buy?</i>	Number [_____] Don't know 99
A39b <i>In the past 2 months, how many condoms were given to you by others, including your sexual partners?</i>	Number [_____] Don't know 99
A39c <i>How many condoms do you currently have in your home?</i>	Number [_____] Don't know 99

Section 6: Expectations Questions

"I will ask you several questions about the chance or likelihood that certain events are going to happen. There are 10 beans in the cup. I would like you to choose some beans out of these 10 beans and put them in the plate to express what you think the likelihood or chance is of a specific event happening. One bean represents one chance out of 10. If you do not put any beans in the plate, it means you are sure that the event will NOT happen. As you add beans, it means that you think the likelihood that the event happens increases. For example, if you put one or two beans, it means you think the event is not likely to happen but it is still possible. If you pick 5 beans, it means that it is just as likely it happens as it does not happen (fifty-fifty). If you pick 6 bins, it means the event is slightly more likely to happen than not to happen. If you put 10 beans in the plate, it means you are sure the event will happen. There is not right or wrong answer, I just want to know what you think.

Let me give you an example. Imagine that we are playing Bawo. Say, when asked about the chance that you will win, you put 7 beans in the plate. This means that you believe you would win 7 out of 10 games on average if we play for a long time.

INTERVIEWER: Report for each question the NUMBER OF BEANS put in the PLATE. After each question, replace the beans in the cup (unless otherwise noted).

For questions X1a to X1f: If respondent puts 10 (or 0) beans, prompt “Are you sure that this event will almost surely (not) happen?” CIRCLE 1 in column P if you prompted the respondent, and report the final answer only.

X1	Pick the number of beans that reflects how likely you think it is that...	# of beans in plate	Prompt for 0 or 10?
	a) you will win if we play a game of Bawo after this interview	[_____]	1
	b) a baby born in your community this month will die within one year	[_____]	1
	c) you will go to the market at least once <u>within the next 2 days</u> (LEAVE BEANS IN PLATE)	[_____]	1
	d) you will go to the market at least once <u>within the next 2 weeks?</u>	[_____]	1
INTERVIEWER: Did Respondent add any beans between X1c and X1d?		If yes → X1f	
	e) Remember, as time goes by, you may find more time to go to the market. Therefore, you should have added beans to the plate. Let me ask you again. Now, add beans in the plate so that the number of beans in the plate reflects how likely you think it is that you will go the market at least once <u>within 2 weeks?</u>	[_____]	1
	f) you will experience shortage of food in the next 12 months?	[_____]	1

For the subsequent questions, no longer prompt for “0” and “10” answers

X2	Pick the number of beans that reflects how likely you think it is that...	# of beans in plate
	a) you will have to rely on family members for financial assistance in the next 12 months	[_____]
	b) you are infected with HIV/AIDS now	[_____]

	c) your spouse is infected with HIV/AIDS now	[_____]
	d) you will use condom the next time you have sex with your spouse	[_____]
	e) you will use condom the next time you have sex with someone else other than your spouse (INTERVIEWER: If sex only with spouse, write 99)	[_____] → X3
FOR UNMARRIED RESPONDENTS		
	f) your romantic partner is infected with HIV/AIDS now (INTERVIEWER: If no romantic partner, write 99 and → X2h)	[_____]
	g) you will use condom the next time you have sex with your romantic partner (INTERVIEWER: if no romantic partner, write 99)	[_____]
	h) you will use condom the next time you have sex with someone you just met (INTERVIEWER: If no sex with someone just met, write 99)	[_____]
	i) you will be married one year from now	[_____]

FOR BOTH MARRIED AND UNMARRIED RESPONDENTS	
X3 Consider a healthy man in your village who currently does not have HIV. Pick the number of beans that reflects how likely you think it is that he will become infected with HIV ...	# of beans in plate
a) during a single intercourse without a condom with someone who has HIV/AIDS	[_____]
b) within the next 12 months (with normal sexual behavior)	[_____]
c) within the next 12 months if he is married to someone who is infected with HIV/AIDS	[_____]
d) within the next 12 months if he has several sexual partners in addition to her spouse	[_____]
e) what about if this man we just spoke about [in X3d] uses a condom with all extra-marital partners? How many beans would you leave on the plate?	[_____]

Next, I would like you to consider the likelihood that somebody dies as time goes by. This is an imaginary person, and I am going to describe her to you. The beans in the plate represent the chances out of 10 that the person dies within a certain time period. The person is alive today so we start with an empty plate. As time goes by, more unfortunate things can happen and the person has more chances of dying, so more beans will be added to the plate”

INTERVIEWER:

1. Ask questions X4 to X5b for the **INDIVIDUAL** described in Column A. After X4 and X5a, LEAVE beans in plate. After X5b, put beans back in the cup. RECORD the number of beans in the plate after each question.
2. **COLUMN** by **COLUMN**, REPEAT questions X4 to X5b for the **INDIVIDUALS** described in Columns B, C and D. For each individual, LEAVE the beans in the plate after X4 and X5a, and put beans back in the cup after X5b. RECORD the number of beans in the plate after each question.
3. If respondent says “I Don’t Know”, probe with examples: “someone might die because of old age, disease, car accident. How likely do you think it is any of those things happen within [for X4: 1 year; for X5a: 5 years; for X5b: 10 years]?”

RECORD the number of beans in the plate for each question.	DESCRIPTION OF INDIVIDUAL	
	A	B
	A man your age who is healthy and does not have HIV	A man your age who is infected with HIV

	C <i>A man your age who is sick with AIDS</i>	D <i>A man your age who is sick with AIDS and is treated with ARV</i> If R does not know about ARV, skip and go to X6
X4 <i>Pick the number of beans that reflects how likely you think it is that [INDIVIDUAL] will die within a <u>one-year</u> period beginning today.</i> (LEAVE BEANS ON PLATE)	[_____] Beans in plate If 10, → X4 for individual D	[_____] Beans in plate If 10, → X6

b) <i>will die within a <u>ten-year</u> period beginning today</i> (IT IS POSSIBLE TO ADD ZERO ADDITIONAL BEANS. PUT BEANS BACK IN CUP AFTER RECORDING THE ANSWER)	[_____] Beans in plate → X4 for individual D	[_____] Beans in plate → X6

Finally, I would like to ask you to consider the likelihood that you may not be alive as time goes by. We hope that nothing bad will happen to you, but nevertheless, something unfortunate may occur over the next years despite all precautions that you may take. If you don't want to, you do not need to answer this question.

INTERVIEWER: If respondent refuses to answer, skip to **X8: Time and Risk Preferences**.

	# OF BEANS in plate
X6 <i>Pick the number of beans that reflects how likely you think it is that you will die within a <u>one-year</u> period beginning today.</i> (LEAVE BEANS ON PLATE)	[_____] if 10 → X8

Section 7: Time and Risk Preferences

Next, I would like to ask you some questions about your preferences in monetary matters. These are purely hypothetical questions, and there are no right or wrong answers. Please try to answer these questions as if you were actually facing this situation in real life.

<p>For the next three questions, suppose that you have won 1,000 Kwacha in a lottery. I am interested in whether</p> <ul style="list-style-type: none"> You would prefer these 1,000 Kwacha that you would get for sure, OR whether You would take the 50-50 chance to double your money, in which case you have a 50-50 chance to receive more than the original 1,000 Kwacha, and a 50-50 chance to receive less than your original K1,000. 	
<p>RP1 Suppose that you won K1000. You could keep the K1000 or take a 50-50 chance to double the money to K2000 but also a 50-50 chance to reduce the money to K667. Would you rather have:</p> <p style="text-align: center;">[READ RESPONSES]</p>	<p>K1,000 for sure.....1</p> <p>50-50 chance for K2,000 and 50-50 chance for K667....2</p>
<p>RP2 Suppose you get a 50-50 chance to double the money to K2000 but a 50-50 chance to reduce the money to K250. Would you rather have:</p> <p style="text-align: center;">[READ RESPONSES]</p>	<p>K1,000 for sure.....1</p> <p>50-50 chance for K2,000 and 50-50 chance for K250...2</p>
<p>RP3 Suppose you get a 50-50 chance to double the money to K2000 but a 50-50 chance to reduce the money to K900. Would you rather have:</p> <p style="text-align: center;">[READ RESPONSES]</p>	<p>K1,000 for sure.....1</p> <p>50-50 chance for K2,000 and 50-50 chance for K900....2</p>

The next few questions are about receiving money now as compared to receiving money later.

KB1 Would you prefer 310 Kwacha now or 850 Kwacha in 1 week?	310 Kwacha now1 850 Kwacha in 1 week2
KB2 Would you prefer 780 Kwacha now or 800 Kwacha in 5 months?	780 Kwacha now1 800 Kwacha in 5 months2
KB3 Would you prefer 540 Kwacha now or 800 Kwacha in 1 month?	540 Kwacha now1 800 Kwacha in 1 month2
KB4 Would you prefer 670 Kwacha now or 750 Kwacha in 4 months?	670 Kwacha now1 750 Kwacha in 4 months2
KB5 Would you prefer 550 Kwacha now or 750 Kwacha in 2 months?	550 Kwacha now1 750 Kwacha in 2 months2
KB6 Would you prefer 690 Kwacha now or 850 Kwacha in 3 months?	690 Kwacha now1 850 Kwacha in 3 months2
KB7 Would you prefer 410 Kwacha now or 750 Kwacha in 3 weeks?	410 Kwacha now1 750 Kwacha K750 in 3 weeks2
KB8 Would you prefer 800 Kwacha now or 850 Kwacha in 5 months?	800 Kwacha now1 850 Kwacha in 5 months2
KB9 Would you prefer 330 Kwacha now or 800 Kwacha in 2 weeks?	330 Kwacha now1 800 Kwacha in 2 weeks2

Next, I am going to ask you the same questions again, with one important difference. I will no longer ask you about receiving money now compared with receiving money later. Instead, I will ask you about receiving money 2 months from now compared with receiving money at a time more than 2 months from now.

KD1 Would you prefer 310 Kwacha in 2 months or 850 Kwacha in 2 months plus 1 week?	310 Kwacha in 2 months 1 850 Kwacha in 2 months plus 1 week 2

Section 12: Social Trust

Many organizations have been spreading information about HIV and how people can prevent themselves from getting infected. Some people trust these organizations to provide accurate information, and some people don't. I'd like to hear your opinion. I'm going to read you a list of organizations and people.

I'd like to hear how much you trust them to provide accurate information about HIV.

U1	List of organizations / people:	A great deal	A good amount	Very little	None	Don't know
a)	Your best friend	3	2	1	0	99
